

BECOME SCAM-SAVVY & HARD TO HACK

*Book an online-safety masterclass for a group of friends at your house. The host joins for free.**

We cover:

- The latest **scams** and how to **spot them** before it's too late, whether you're targeted telephonically, via SMS, WhatsApp or email, while shopping online, or on social media
- The biggest **password mistakes** people make and how to fix them (how password managers & authenticator apps work)
- How to find out and what to do if your personal info was leaked in a **data breach**
- Responsible **social media** and **WhatsApp** use: steps to take to improve your safety immediately
- How to help your **children** and **parents** stay **safe online**
- What happens **when you die**? How to make sure your loved ones can access your online accounts should the worst happen

How it works

Get a group of friends together (min 4, max 6) and we'll come to you. Host to provide a quiet space with a table that comfortably seats 5 to 7 people, coffee and tea*

Duration

3.5 to 4 hours

Also included

- An online safety checklist to refer to in the long term
- Access to a list of valuable online-safety resources
- The option to be added to our database and be notified of new data breaches and online risks
